a premium lifestyle.

All master bedrooms are en suite, and the homes feature additional guest bathrooms. The apartments are north-facing, and all ground floor units boast private gardens.

The apartment blocks are a welcomed addition completing an offering that allows Eye of Africa to provide homes for purchasers across all the spectrums.

nature's home.

Developers opted to keep the height of the apartment blocks to two storeys, so that the buildings sit comfortably in the landscape and create a cosy, village-type atmosphere.

With prices for the apartments starting at R1 455 000, The Village is an inviting option for first-time purchasers.

The Village comprises 12 apartment blocks, with eight apartments in each block.

The apartments themselves have been designed to make the most of the glorious, outdoor-oriented lifestyle so characteristic of Eye of Africa.

The Village's architecture has remained true to Eye of Africa's aesthetic, embracing nature's colours and textures to optimise the estate's setting which, with its sweeping views, dams, and abundance of indigenous plants, is reminiscent of a nature reserve.
